Today's print market places great demands on your business. Investments in cutting-edge wide format, inkjet, and digital print engines ensure you meet your customer's needs. Why are you wasting valuable production time using that old paper cutter? Step up to a Titan 265 XT!

The Titan 265 XT continues the Challenge excellence of innovation and strength we've become famous for since 1880. The Titan 265 is based on a solid cast iron and steel construction for maximum durability. UHMW gib surfaces, composite bushings, and a one-inch thick solid tool grade aluminum table require virtually no maintenance for years of trouble-free operation.

The intuitive menu-driven color touch-screen controller allows variable mode data entry with up to 47,000 total cut position storage. Advanced label cutting and sheet division assistant allows for even the most novice operator to program complex jobs. Industry-leading electronic clamp pressure control can be adjusted as a step within a job – minimizing waste.

With so many difficult decisions to make in your business, this one is easy!
